# 1:1 Laptop Care & Reminders

The top 4 damage list

**From the Help Desk:  
Caring for your laptop**

**Backpack**

**Floor**

**Car**

**Edge of  
Desk**

## So what happens?

- If you place your laptop bag in your backpack the pressure from the books, binders, or someone pushing into your backpack can cause damage. Plus, the tech policy states not to place your laptop bag in your backpack for these reasons.
- Leaving your laptop bag on the floor is a sure way to have someone step on it.
- Avoid leaving your laptop in a car. Extreme temperatures can damage the components.
- Laptops on the edge of a desks or with the power cord stretched can result in the laptop falling and having extensive damage.

# Frequent Questions

## Wireless:

I can not get on the internet or connect to a wireless network?

Make sure you are on the **student** network. If you are still not able to connect, click on the search icon and type **reset internet connection**. Click on this icon to reset the connection.
